

SINGAPORE'S RESOURCE SUSTAINABILITY ACT, ONE YEAR ON

FRIDAY
4 SEPTEMBER 2020
3-5PM
SINGAPORE TIME (GMT+8)

**Opening Address by
Dr Amy Khor**
Senior Minister of State for
Sustainability and the Environment

Pek Hailin
Executive Director,
Zero Waste SG

Moderators

Melissa Low
Research Fellow,
Energy Studies
Institute, NUS

Eric Bea
Researcher,
Asia-Pacific Centre
for Environmental
Law, NUS Law

Panellists

Farah Sanwari
Innovation Program
Manager, SecondMuse
/ Corporate Lead,
Climate Conversations

Kia Jie Hui
Principal
Sustainability
Strategist,
Forum for the Future

**Veerappan
Swaminathan**
Founder & Director,
Sustainable Living Lab
(SL2)

Darren Tan
Education & Outreach
Manager, ComCrop

One year on, what have we learnt about managing e-waste, food waste and packaging waste? Is Singapore on track towards becoming a zero-waste nation?

Singapore's Resource Sustainability Act was passed in Parliament on 4th September 2019. The Act seeks to target the three priority waste streams with high generation and low recycling rates: e-waste, food waste, and packaging waste. Next year, Producer Responsibility Schemes for e-waste, as well as new food waste regulations for new commercial and industrial developments, will come into force. Further regulations will come into force in 2024.

This webinar will feature practitioners in the field of resource sustainability. Their experiences will shed light on the challenges and opportunities in the implementation of the Act.

To register for this programme, go to <https://bit.ly/2BTwMjj> or scan QR code.

Registration closes 2 September 2020.

Please email Nur Fazirah at rescle@nus.edu.sg for enquiries.
