

CBFL - SCCA SEMINAR

A Legal Perspective on FinTech and Its Impact on Financial Systems

Ms Liu Yan
Assistant General Counsel
Legal Department, International Monetary Fund

ABOUT THE SEMINAR

Emerging technologies, from artificial intelligence to distributed ledgers, are transforming the financial services landscape, creating opportunities as well as challenges. These technologies could drive substantial efficiency gains in the financial sector, including in the areas of payments, financing, investments, asset management and insurance. However, they could also pose risks to the stability and integrity of the financial system, in particular where they operate outside of the purview of legal and regulatory frameworks. The overarching theme of this seminar will be FinTech and the impact of technology, from a legal perspective, on financial systems. The seminar will consider the key legal issues in the domains of financial sector public and private law related to FinTech.

ABOUT THE CENTRE FOR BANKING & FINANCE LAW

The Centre for Banking & Finance Law (CBFL) at the Faculty of Law, National University of Singapore, seeks to generate scholarship and promote thinking about the vibrancy, robustness and soundness of the banking sector, capital markets and other financial services. Through the research our scholars undertake and the events we organise, we seek to create and share knowledge, to engage stakeholders in an exchange of ideas, and to enhance the appreciation of legal and regulatory issues. We aim to bring greater theoretical and analytical clarity to these issues, to examine their policy impact, and to be a catalyst for ideas on how to improve banking and financial systems at the national, regional and global levels. Visit our website at <https://law.nus.edu.sg/cbfl/>.
